## MORE POWER FOR YOUR TWO-WHEELER

SF Sonic Mobiker batteries are designed to give you a quick and powerful start. Designed for Indian riding conditions and manufactured with the latest precision technology, their power-packed cells store more charge while their rugged, vibration-resistant construction takes on rough Indian road conditions without fear of premature failure. Now you can be sure of confident starts year after year even in extreme conditions.

Mobiker batteries come in three variants to suit every need and pocket.

### MOBIKER 1440

*Sealed maintenance-free VRLA battery*  
**48 MONTHS WARRANTY**

The most advanced battery of its type, Mobiker 1440 is fully sealed, spill proof battery featuring sophisticated Absorbed Glass Mat (AGM) separators and superior Lead-Calcium plate technology which reduces water loss by 3 times.

- Improved charge recovery from deeply discharged condition
- Longer shelf life and improved life cycle performance
- Extreme vibration resistance
- Unique flame arrestor for extra safety
- Better cranking performance and low self discharge

### MOBIKER 1080

*Enhanced maintenance-free conventional battery*  
**36 MONTHS WARRANTY**

A truly rugged battery, the Mobiker 1080 features a special separator containing synthetic pulp which acts as shock absorber and prevents 'shedding' of active material.

- State of the art Lead Calcium technology that is maintenance free.
- Heavy duty separators for enhanced life cycle.
- Ruggedly designed polypropylene body with high impact resistance.
- Engineered to protect against corrosion

### MOBIKER 540

*Conventional Battery*  
**18 MONTHS WARRANTY**

The most economical Mobiker 540 is designed for ensuring quick starts. It also features special glass mat separators to protect against shedding due to vibrations, potholes and bumps.

- Exclusive grid design and paste technology
- Sulphate retardant formula for protection during idle storage.
- Tough polypropylene body for all weather conditions.
